SECTION 4: First Aid Measures

4.1. **Description of First-aid Measures**

First-Aid Measures General Never give anything by mouth to an unconscious person. If you

feel unwell, seek medical advice (show the label where

possible).

First-Aid Measures After If inhaled, remove to fresh air and keep at rest in a position

comfortable for breathing. When symptoms occur: go into open air and ventilate suspected area. Obtain medical

attention if breathing difficulty persists.

First-Aid Measures After Skin Immediately remove contaminated clothing. Obtain medical

attention if irritation/rash develops or persists. Immediately

drench affected area with water for at least 15 minutes.

First-Aid Measures After Eye Immediately rinse with water for at least 15 minutes. Remove Contact

contact lenses, if present and easy to do. Continue rinsing.

Obtain medical attention if pain, blinking or redness persist.

First-Aid Measures After Do NOT induce vomiting. Rinse mouth. Immediately call a

POISON CENTER or doctor/physician. Ingestion

4.2. Most Important Symptoms and Effects Both Acute and Delayed

Causes serious eye irritation. Causes skin irritation. May cause Symptoms/Effects

> respiratory irritation. Skin sensitisation. May be fatal if swallowed and enters airways. May cause damage to organs through

prolonged or repeated exposure.

Symptoms/Effects After Irritation of the respiratory tract and the other mucous

Inhalation membranes.

Symptoms/Effects After Skin Redness, pain, swelling, itching, burning, dryness, and

Contact dermatitis. May cause an allergic skin reaction.

Contact causes severe irritation with redness and swelling of the Symptoms/Effects After Eye

conjunctiva.

Symptoms/Effects After Aspiration into the lungs can occur during ingestion or vomiting

Ingestion and may cause lung injury.

Chronic Symptoms May cause damage to organs through prolonged or repeated

exposure.

Indication of Any Immediate Medical Attention and Special Treatment Needed 4.3.

If medical advice is needed, have product container or label at hand. If exposed or concerned, get medical advice and attention.

SECTION 5: Firefighting Measures

Extinguishing Media

Suitable Extinguishing Media Water spray, fog, carbon dioxide, dry chemical powder,

alcohol foam, polymer foam.

Unsuitable Extinguishing Media Do not use a heavy water stream. A heavy water stream may

> spread burning liquid. Application of water stream to hot product may cause frothing and increase fire intensity.

5.2. Special Hazards Arisina From the Substance or Mixture

Fire Hazard Flammable liquid and vapour. Vapours are heavier than air

and may travel considerable distance to an ignition source and

flash back to source of vapours.

Explosion Hazard May form flammable/explosive vapour-air mixture.

06/04/2020 EN (English) 4/18 According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

Reactivity Reacts violently with strong oxidisers. Increased risk of fire or

explosion.

Hazardous Decomposition Products in Case of Fire

Silicon oxides. Carbon oxides (CO, CO₂). Hydrocarbons. Smoke.

Oxides of tin.

5.3. Advice for Firefighters

Precautionary Measures Fire Firefighting Instructions

Exercise caution when fighting any chemical fire.

Do not breathe fumes from fires or vapours from

decomposition. Use water spray or fog for cooling exposed containers. Avoid release to the environment. In case of major fire and large quantities: Evacuate area. Fight fire remotely due

to the risk of explosion.

Protection During Firefighting Do not enter fire area without proper protective equipment,

including respiratory protection.

SECTION 6: Accidental Release Measures

6.1. Personal Precautions, Protective Equipment and Emergency Procedures

General Measures Avoid breathing (vapor, mist, spray). Avoid all contact with skin.

eyes, or clothing. Use special care to avoid static electric charges. Keep away from heat, hot surfaces, sparks, open

flames, and other ignition sources. No smoking.

6.1.1. For Non-Emergency Personnel

Protective Equipment Use appropriate personal protective equipment (PPE).

Emergency Procedures Evacuate unnecessary personnel. Stop leak if safe to do so.

6.1.2. For Emergency Responders

Protective Equipment Equip cleanup crew with proper protection.

Emergency Procedures Upon arrival at the scene, a first responder is expected to

recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area.

Eliminate ignition sources.

6.2. Environmental Precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

6.3. Methods and Materials for Containment and Cleaning Up

For Containment Contain any spills with dikes or absorbents to prevent migration

and entry into sewers or streams. As an immediate

precautionary measure, isolate spill or leak area in all directions.

Methods For Cleaning Up

Clean up spills immediately and dispose of waste safely. Absorb

and/or contain spill with inert material. Do not take up in combustible material such as: saw dust or cellulosic material. Transfer spilled material to a suitable container for disposal. Use

only non-sparking tools. Contact competent authorities after a

spill.

6.4. Reference to Other Sections

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

SECTION 7: Handling And Storage

7.1. Precautions for Safe Handling

Additional Hazards When Handle empty containers with care because residual vapours

Processed are flammable. When heated, material emits irritating fumes.

Any proposed use of this product in elevated-temperature processes should be thoroughly evaluated to assure that safe

operating conditions are established and maintained.

Precautions for Safe Handling Avoid breathing vapors, mist, spray. Avoid contact with eyes,

skin and clothing. Take precautionary measures against static discharge. Use only non-sparking tools. Keep away from heat, sparks, open flames, hot surfaces. – No smoking. Wash hands and other exposed areas with mild soap and water before

eating, drinking or smoking and when leaving work.

Hygiene Measures Handle in accordance with good industrial hygiene and safety

procedures.

7.2. Conditions for Safe Storage, Including Any Incompatibilities

Technical Measures Comply with applicable regulations. Take action to prevent

static discharges. Ground and bond container and receiving equipment. Use explosion-proof electrical, ventilating, and

lighting equipment.

Storage Conditions Store in a dry, cool place. Keep/Store away from direct sunlight,

extremely high or low temperatures and incompatible materials. Store locked up/in a secure area. Store in a well-ventilated place. Keep container tightly closed. Keep in

fireproof place.

Incompatible Materials Strong acids, strong bases, strong oxidizers.

7.3. Specific End Use(S) For professional use only.

8.2. Exposure Controls

Appropriate Engineering Controls

Ensure all national/local regulations are observed. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Take precautionary measures against static discharges. Use explosion-proof equipment. Proper grounding procedures to avoid static electricity should be followed. Gas detectors should be used when flammable gases/vapours may be released.

Personal Protective Equipment

Protective clothing. Protective goggles. Gloves. Insufficient ventilation: wear respiratory protection.

Materials for Protective Clothing

Hand Protection
Eye Protection
Skin and Body Protection
Respiratory Protection

Wear fire/flame resistant/retardant clothing. Chemically resistant materials and fabrics.

Wear protective gloves. Chemical safety goggles.

Wear suitable protective clothing.

If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory

protection.

Other Information When using, do not eat, drink or smoke.
