Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EC) No. 453/2010 Revision data:

Revision date: 21/09/2015

Date of issue: 18/04/2013

Version: 2.0

THE CHEMISTRY

OF CARE

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier				
Product form	Substance			
Substance name	MED-420 @ 12,500 CP			
CAS No	115361-68-7			
Synonyms	Silicone Fluid			
1.2. Relevant identified uses of the substance or mixture and uses advised against				
1.2.1. Relevant identified uses	_			
Industrial/Professional use spec	Industrial.			
	For professional use only.			
Use of the substance/mixture	Silicone fluid with reduce solubility, good wetting properties and good lubrication characteristics			
1.2.2. Uses advised against				

No additional information available

1.3. Details of the supplier of the safety data sheet

NuSil Technology LLC 1050 Cindy Lane Carpinteria, California 93013 USA (805) 684-8780 <u>ehs@nusil.com</u> www.nusil.com

1.4. Emergency telephone number

Emergency: 800-424-9300 CHEMTREC (in US); +1 703-527-3887 CHEMTREC (International and<br/>Maritime)

### **SECTION 2: Hazards identification**

2.1. Classification of the substance or mixture
Classification according to Regulation (EC) No. 1272/2008 [CLP]
Not classified
Adverse physicochemical, human health and environmental effects
No additional information available
2.2. Label elements
Labelling according to Regulation (EC) No. 1272/2008 [CLP]
No labelling applicable
2.3. Other Hazards

No additional information available

### SECTION 3: Composition/information on ingredients

### 3.1. Substance

Name	Product identifier	%	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Dimethylmethyl 3,3,3- trifluoropropyl siloxane	(CAS No) 115361-68-7	100	Not classified

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EC) No. 453/2010

Full text of H-statements: see section 16

3.2. Mixture

Not applicable

### **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

First-aid measures general	Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).
First-aid measures after inhalation	If inhaled, remove to fresh air and keep at rest in a position comfortable for breathing. Obtain medical attention if breathing difficulty persists.
First-aid measures after skin contact	Remove contaminated clothing. Gently wash with plenty of soap and water. Obtain medical attention if irritation develops or persists.
First-aid measures after eye contact	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if pain, blinking or redness persists.
First-aid measures after ingestion	Seek medical attention if a large amount is swallowed. Rinse mouth. Do not induce vomiting. Call a POISON CENTER/doctor/physician if you feel unwell.
4.2. Most important symptoms	and effects, both acute and delayed
Symptoms/injuries	Not expected to present a significant hazard under anticipated conditions of normal use.
Symptoms/injuries after inhalation	Prolonged exposure to liquid may cause a mild irritation.
Symptoms/injuries after skin contact	Contact during a long period may cause slight irritation.
Symptoms/injuries after eye contact	May cause slight irritation.
Symptoms/injuries after ingestion	Ingestion is likely to be harmful or have adverse effects.
4.3. Indication of any immedia	te medical attention and special treatment needed

If you feel unwell, seek medical advice (show the label where possible).

### **SECTION 5: Firefighting measures**

### 5.1. Extinguishing media

Suitable extinguishing media Unsuitable extinguishing media	<ul> <li>Dry chemical, carbon dioxide, water spray, fog, foam.</li> <li>Do not use a heavy water stream. Use of heavy stream of water may spread fire.</li> </ul>
5.2. Special hazards arising fron	n the substance or mixture
Fire hazard	Not considered flammable but may burn at high temperatures.
Explosion hazard	Product is not explosive.
Reactivity	Hazardous reactions will not occur under normal conditions.
5.3. Advice for firefighters	
Precautionary measures fire	Exercise caution when fighting any chemical fire.
Firefighting instructions	Use water spray or fog for cooling exposed containers. Do not allow run-off from firefighting to enter drains or water courses.
Protection during firefighting	Do not enter fire area without proper protective equipment, including respiratory protection.
Other information	Refer to Section 9 for flammability properties.

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

General measures Avoid all contact with skin, eyes, or clothing.

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EC) No. 453/2010

6.1.1.For non-emergency persor	nel
Protective equipment	Use appropriate personal protection equipment (PPE).
Emergency procedures	Evacuate unnecessary personnel.
6.1.2. For emergency responders	
Protective equipment	Equip cleanup crew with proper protection.
Emergency procedures	Ventilate area.
6.2. Environmental precautions	
•	waters. Notify authorities if liquid enters sewers or public waters.
6.3. Methods and material for a	ontainment and cleaning up
For containment	Contain any spills with dikes or absorbents to prevent migration and
	entry into sewers or streams.
Methods for cleaning up	Clean up spills immediately and dispose of waste safely. Absorb
	and/or contain spill with inert material, then place in suitable
	container.
6.4 Reference to other sections	

#### 6.4. Reference to other sections

See heading 8, Exposure Controls and Personal Protection.

### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Additional hazards when processed	Hot organic chemical vapors or mists are susceptible to spontaneous combustion when mixed with air, ignition may occur below auto ignition temperature. Ignition temperatures will decrease with increasing vapour volumes, vapour air contact time, and pressure changes. Ignition may occur at elevated-temperature process conditions, especially under a vaccuum. Any proposed use of this product in elevated-temperature processes should be thoroughly evaluated to assure that safe operating conditions are established and maintained. On heating: formation of small quantities of formaldebyde
Precautions for safe handling	formaldehyde. Handle in accordance with good industrial hygiene and safety procedures. Provide good ventilation in process area to prevent formation of vapour.
Hygiene measures	Handle in accordance with good industrial hygiene and safety procedures. Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and again when leaving work. Do not eat, drink or smoke when using this product.
7.2. Conditions for safe storage,	•
Technical measures	Comply with applicable regulations.
Storage conditions	Store in a dry, cool and well-ventilated place. Keep container closed when not in use. Store away from incompatible materials.
Incompatible products	Strong acids. Strong bases. Strong oxidizers.
Incompatible materials	Sources of ignition. Direct sunlight.

#### 7.3. Specific end use(s)

Silicone fluid with reduce solubility, good wetting properties and good lubrication characteristics. For professional use only.

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

No additional information available

#### 8.2. Exposure controls

Appropriate engineering controls

Ensure adequate ventilation, especially in confined areas. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EC) No. 453/2010

Personal protective equipment

Protective goggles. Gloves. Protective clothing. Avoid all unnecessary exposure. Insufficient ventilation: wear respiratory protection.

Materials for protective clothing Hand protection Eye protection Skin and body protection Respiratory protection Chemically resistant materials and fabrics. Wear chemically resistant protective gloves. Chemical goggles or safety glasses. Wear suitable protective clothing.

### In case of inadequate ventilation wear respiratory protection.

### **SECTION 9: Physical and chemical properties**

### 9.1. Information on basic physical and chemical properties

Physical state	: Liquid
Colour	: Translucent
Odour	: Odourless
Odour threshold	: No data available
рН	: No data available
Relative evaporation rate (butylacetate=1)	: No data available
Melting point	: No data available
Freezing point	: No data available
Boiling point	: No data available
Flash point	: >135 °C (> 275°F)
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Flammability (solid, gas)	: No data available
Vapour pressure	: No data available
Relative vapour density at 20 °C	: No data available
Relative Density	: 1,07 (water = 1)
Solubility	: No data available
Partition coefficient: n-octanol/water	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available
Explosive properties	: No data available
Oxidising properties	: No data available
Explosive limits	: No data available
9.2. Other information	
VOC content c < 1 %	

### **SECTION 10: Stability and reactivity**

### 10.1. Reactivity

Hazardous reactions will not occur under normal conditions. **10.2. Chemical stability** Stable under normal conditions.

10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

#### 10.4. Conditions to avoid

Direct sunlight. Extremely high or low temperatures. Incompatible materials.

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EC) No. 453/2010

#### 10.5. Incompatible materials

Strong acids. Strong bases. Strong oxidizers.

#### 10.6. Hazardous decomposition products

Carbon oxides (CO, CO<sub>2</sub>). Fluorine compounds. Hydrocarbons. Silicon oxides. Formaldehyde. Formaldeyhde is a potential carcinogen and can act as a potential skin and respiratory sensitizer. Formaldehyde can also cause respiratory and eye irritation.

### **SECTION 11: Toxicological information**

### 11.1. Information on toxicological effects

	enec	, I J	
Acute toxicity	Not	classified	ł
Skin corrosion/irritation	Not	classified	ł
Serious eye damage/irritation	Not	classified	
Respiratory or skin sensitisation	Not	classified	1
Germ cell mutagenicity	Not	classified	ł
Carcinogenicity	Not	classified	1
Reproductive toxicity	Not	classified	ł
Specific target organ toxicity (single exposure)		:	Not classified
Specific target organ toxicity (repeated	əd	:	Not classified
exposure)			Based on available data, the classification criteria are not met

Aspiration hazard Not classified

### **SECTION 12: Ecological information**

#### 12.1. Toxicity

No additional information available

#### 12.2. Persistence and degradability

No additional information available

#### 12.3. Bioaccumulative potential

No additional information available

#### 12.4. Mobility in soil

No additional information available

#### 12.5. Results of PBT and vPvB assessment

No additional information available

#### 12.6. Other adverse effects

Other information Avoid release

#### Avoid release to the environment.

### **SECTION 13: Disposal considerations**

### 13.1. Waste treatment methods

Waste disposal recommendations	Dispose in a safe manner in accordance with local/national
	regulations.
Ecology - waste materials	Avoid release to the environment.

### **SECTION 14: Transport information**

In accordance with ADR / RID / IMDG / IATA / ADN **14.1. UN number** Not regulated for transport

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EC) No. 453/2010

14.2. UN proper shipping name Not applicable 14.3. Transport hazard class(es) Not applicable 14.4. Packing group Not applicable 14.5. Environmental hazards Other information No supplementary information available. 14.6. Special precautions for user 14.6.1. **Overland transport** No additional information available 14.6.2. Transport by sea No additional information available 14.6.3. Air transport No additional information available 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code Not applicable

### **SECTION 15: Regulatory information**

## 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1. EU-Regulations

No REACH Annex XVII restrictions MED-420 @ 12,500 cP is not on the REACH Candidate List Contains no substance on the REACH candidate list MED-420 @ 12,500 cP is not on the REACH Annex XIV List Contains no REACH Annex XIV substances VOC content < 1 %

### 15.1.2. National regulations

No additional information available

#### 15.2. Chemical safety assessment

No additional information available

### **SECTION 16: Other information**

Indication of changes:

Section	Section Header	Change	Date Changed
1.3	Details of the supplier of the safety data sheet	Modified	21/09/2015
2	Hazards identification	Removed DSD/DPD information.	21/09/2015
3	Composition/information on ingredients	Removed DSD/DPD information.	21/09/2015
15.1.1	EU-Regulations	Modified	21/09/2015

Revision date Data sources

According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EC) No. 453/2010
